Description

Search advertising is a method of placing online advertisements on our web pages that show results from Findusonweb search results. Businesses who place ads in the search results pay a small fee but this increases your chances of visibility & allows you to reach a much more targeted audience. This is one of our powerful form of advertising through findusonweb as people who search on our site reveal a lot about their intent when they search. We have the ability to bid on keywords so that their ads show up when people are looking for exactly the kinds of things they want
